# Rhett Palmore

## Data Scientist | Analyst | ML

## Skills

### Data / BI Analytics
SQL & Relational Database
Excel and Pivot Tables
Tableau / Power BI / Sigma
Python

### Analytics Engineering
SnowFlake
Selenium (data collection)
ETL troubleshooting

### Data Science
Jupyter Notebooks / VSCode
Python:
    Pandas, Matplotlib, NumPy, & Seaborn
    StreamLit
    Scikit-Learn
    PyTorch

### Other
GitHub
Azure DevOps
Microsoft Office Suite

## Contact

**Address**
Charlotte, North Carolina, USA
(Willing to relocate)

**Phone**
769-231-6780

**Email**
palmore.rhett@gmail.com

**Website**

## Experience

### Coca Cola Consolidated — BI Developer II
June 2023 - Present

• Support the Revenue Growth team by analyzing and reporting on KPI, profitability, and pricing metrics.
• Assist the Warehouse team in tracking supply chain logistics and metrics .
• Utilize Stored Procedures w/ scheduled tasks in SnowFlake to optimize data run times.
• Develop StreamLit web apps with Python for user-friendly data interaction.
• Compile data across tables into performant SQL queries to attach to dashboards.
• Leverage Tableau, PBI, and Sigma for advanced data visualization.
• Troubleshoot ETL processes for data extraction and managing data within Snowflake.

### Evolved Buildings — Data Analyst (Volunteer)
January 2023 - May 2023

• Analyzed equipment surveys for mid-Atlantic construction projects using SQL and Excel to identify outdated components for energy-efficient replacements.

### Latantha Cafe — Owner / BI Analyst
January 2020 - October 2022

• Founded Latantha cafe and applied data analytics to boost profits by eliminating underperforming items and strategically investing in top-performing assets.
• Achieved net profit margins of 65-70% within the first year of operation.
• Upon departure, Latantha was generating over $80,000 in annual revenue and ranked among the top three coffee shops in the city, despite prolonged quarantine protocols.

**Full Work History available upon request…**

## Education

### University of Southern Mississippi — Business Administration
August 2009 - June 2013
Received a Bachelors of Science in Business Administration

### Google Professional Data Analytics Certification
May 2022 - July 2022
Studied essential data analysis processes and tools such as SQL, Tableau, etc.

### Zero to Mastery Bootcamp—Data Science and ML
February 2023 - August 2023
Developing expertise in constructing regression and classification models, with hands-on experience in EDA, data cleansing/splitting, training/testing loops, hyperparameter tuning, evaluation metrics, and model deployment.

### Harvard University - CS50 (Intro to Artificial Intelligence with Python)
May 2024- Present
Currently enrolled in Harvard's CS50's Introduction to Artificial Intelligence with Python, focusing on AI concepts such as search algorithms, machine learning, neural networks, and natural language processing.
